REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance, which was given in the office action mailed on 10-7-2005, and still applies the claimed invention, is repeated herein for convenience:

The prior art does not show or fairly suggest the claimed invention of a taking lens apparatus, and camera utilizing the taking lens apparatus, having the claimed structure and claimed limitations, wherein a rejection under 35 USC 102 or 103 would be improper. Please particularly note the **combination** of claimed elements and claimed limitations, including as recited in amended independent claims 1 and 27, the first lens unit recites including a cemented lens element having a negative lens and a positive lens element; and as recited in amended independent claims 14 and 40, please note the reasons for indicating allowable subject matter in the office action mailed on 5-4-05, page 4, paragraph 8. Therefore, in light of the Applicants' arguments and/or amendments, the claimed invention is considered to be in condition for allowance as being novel and nonobvious over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
